Work Experience

Frontend Developer - *Seva Prints (India – Independent Contractor)* Jun 2020 - May 2022
- Worked with the team to provide direction for process design
- Designed several components to facilitate client-company feedback
- Developed client specific portals to coordinate with the backend API

Android Developer - *Arvis Apps (India – Full Time)* Mar 2017 - Apr 2020
- Delivered 4 native apps
- Developed several prototypes to understand the Android API
- Undertook Mobile-First Frontend Development Tasks for clients

Multiple Roles - *Ramondo Media (Australia – Independent Contractor)* Oct 2015 - Jan 2017
- Custom Wordpress Theming, SEO, Project Management, Ads Management, Report Generation and minor role in graphic design assistance.
- Took a complete Digital Marketing course as part of a delegated task.

Projects

SEO - *Amazon Affiliate Products Website*

Under Ramondo Media, I made an Amazon Affiliate Program based website in line with SEO & compliant with web standards. After one month of taking over the site with my changes, we saw a **4000% increase in total conversions**.

Frontend Development - *Web Portal*

Under Seva Prints, I created the main web portal using **HTML/CSS & jQuery + JS** implementing responsive design and a material theme from scratch.

Native Android App - *LockPad*

A note taking app that respects privacy and encrypts notes with 256-bit encryption; written in **Java**. Created at Arvis Apps.

Native Android App - *Thumbnail Downloader*

An app that allowed you to download YouTube thumbnails and eventually be able to rate them; written in **Java**. Created at Arvis Apps.

Personal Projects

Image Background Remover - Live Demo | Source Code

Full Stack Application with frontend written in **Typescript** with **React** and backend API written with **Typescript** in **Node.js**. Removes the background or foreground of an uploaded image.

Nine Key Piano - Live Demo | Source Code

A nine key piano made to experiment with **HTML5 Audio** under the FCC Frontend Certification course made with **Vanilla JS**.

Random Quote Generator - Live Demo | Source Code

Mini API with Axios to display random quotes from a file. Dynamic background & text contrast change (dark text if light background and vice versa) done programatically. Made with **ReactJS**.

malviya.dev - Live Deployment

Personal website made with Hugo with a forked theme I am actively developing.

Education

La Martiniere College, Lucknow (India) - *High School*
